**Thomas Goesmann**

Geschäftsführer  
Managing Director

Dusseldorf, September 20th 2013

Dear Mr. Solano

As Managing Director of Foundation for UNESCO I am grateful for the collaboration of FUNDACION MONDARIZ BALNEARIO in the project "*Educational programs to educate children to act responsibly with nature*".

This project is part of the *UNESCO Program for the Education of Children in Need*, a program that has helped from 1992 the infantile population victim of conflicts, plagues and situations of poverty. The program is focused in the informative - educational area, and one of the priorities has been the care and sustainable use of the resources. Specially facilitating the access to the drinkable water by educating towards responsible use and consumption.

The previous experience of FUNDACION MONDARIZ BALNEARIO in designing the site [www.elsitidelaagua.com](http://www.elsitidelaagua.com) has been an important support for this project. Thanks a lot.

Best Regards

  
Thomas Goesmann
